

Books on Water Resources

Water Resources Cooperation between India and Nepal

This volume is the outcome of an international conference on this subject organised by the Maulana Abul Kalam Azad Institute of Asian Studies, Kolkata (MAKAIAS) in collaboration with the B. P. Koirala India-Nepal Foundation, Embassy of India.

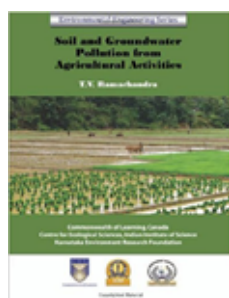

Authored by: Monika Mandal
 Published by: KW Publishers | Year: 2016
 ASIN-B0778KFMG4;

International Conflict over Water Resources in Himalayan Asia (Critical Studies of the Asia-Pacific)

This combination ensures both the depletion of water resources and the increase in disputes over ownership of transboundary river waters. In a thorough investigation, based on extensive field research across Asia, the authors examine how these disputes impact the present and future interstate relations of this key region.

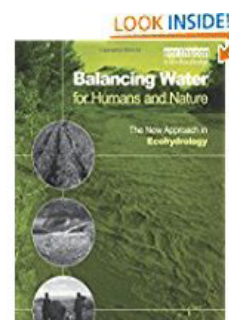

Authored by: Dr Robert G. Wirsing, Christopher Jasparro, Daniel C. Stoll

 ISBN-10: 0230237835; ISBN-13: 978-0230237834;

Soil and Groundwater Pollution from Agricultural Activities

The book on soil and groundwater pollution from agricultural activities introduces the reader to major agricultural activities in India and their impact on soil and groundwater.

Authored by: T. V. Ramachandra
 Published by: The Energy and Resources Institute, TERI | Year: 2009
 ISBN-10: 8179931854; ISBN-13: 978-8179931851;

Balancing Water for Humans and Nature: The New Approach in Ecohydrology

They advocate an ecohydrological approach to land/water/environmental problems and advance a strong, reasoned argument for viewing precipitation as the gross fresh water resource, ultimately responsible for sustaining all terrestrial and aquatic ecosystem services.

Authored by: Johan Rockstrom
 Published by: Routledge | Year: 2013
